

NAME OF ARTIST :

Grade:

Grading Rubric Guidelines:

This exercise will be graded in two stages – python script and Houdini work

Python Script /30

- created the student's **own** python script to parse txt files as discussed in class
- Submitting a copied example file will result in an overall grade of zero
- clean code – appropriately commented and modular, use of function(s)
- implemented data parsing using the fundamental constructs discussed in class
(including loops, functions, creating folder via code)
- Not using folders -3 (they can be manually created - that fine)
- Using functions, if not using functions -5

Houdini Work /70

- ✓meeting minimum requirements as specified in the exercise
 - cool/completed visual
 - presentation
 - html/pdf/website included
 - houdini python code clean and appropriately commented

/50

- ✓submitted using submission guidelines as specified in the handout

/5

- ✓extra features such as going above and beyond with complexity/excellent breakdown/creative ideas etc.

/15
